9. Experience of the Visit and Conclusion

The activity of the community service is done for creating the awareness among the people from rural as well as urban areas about Co-Win vaccination Portal service provided by Government of advised how to use those modes to the targeted people. An effort was made for student team to create awareness among at least 4 families to Co-Win vaccination Portal and help them to register on it. It was monitor under the guidance of Faculty team. Our project group enjoyed the activity and learned how to connect with social life where there is no knowledge of about any facilities by government. The ratio of awareness is satisfactory because the information is understood by the rural as well as urban people and the subject will surely help us to complete our responsible regarding the social life.
